Combined management report

In line with the provisions of Section 315 (5) HGB (German Commercial Code, "Handelsgesetzbuch") together with Section 298 (2) HGB, the management report of Deutsche Bank AG has been combined with the management report of Deutsche Bank Group. The combined management report is published in the Annual Report 2023 of Deutsche Bank Group. It is filed with and subsequently published by the German Federal Gazette (Bundesanzeiger).

The Annual Report is also made available under <https://www.db.com/ir/en/annual-reports.htm>.

Balance sheet as of December 31, 2023

Assets in € m.				Dec 31, 2023	Dec 31, 2022
Cash reserve					
a) Cash on hand			1,345		1,793
b) Balances with central banks			76,287		67,159
thereof: with Deutsche Bundesbank	5,150				4,969
				77,632	68,952
Debt instruments of public-sector entities and bills of exchange eligible for refinancing at central banks					
a) Treasury bills, discountable Treasury notes and similar debt instruments of public-sector entities			642		636
thereof: eligible for refinancing at Deutsche Bundesbank	128				340
b) Bills of exchange			13		17
				656	653
Receivables from banks					
a) Mortgage loans			61		61
b) Loans to or guaranteed by public-sector entities			22		59
c) other receivables			175,297		172,761
thereof: repayable on demand	92,911			175,379	172,881
receivables collateralized by securities	8,742				108,372
					6,479
Receivables from customers					
a) Mortgage loans			99,211		97,740
b) Loans to or guaranteed by public-sector entities			3,544		4,545
c) other receivables			333,189		351,477
thereof: receivables collateralized by securities	13,803			435,943	453,762
					13,984
Bonds and other fixed-income securities					
a) Money market instruments					
aa) of public-sector issuers		935			174
thereof: eligible as collateral for Deutsche Bundesbank	0				0
ab) of other issuers		0			0
thereof: eligible as collateral for Deutsche Bundesbank	0				0
			935		174
b) Bonds and notes					
ba) of public-sector issuers		37,304			37,626
thereof: eligible as collateral for Deutsche Bundesbank	14,665				9,613
bb) of other issuers		32,955			32,674
thereof: eligible as collateral for Deutsche Bundesbank	23,811				23,908
			70,259		70,300
c) Own debt instruments			228		0
nominal amount	292				0
				71,422	70,474
Equity shares and other variable-yield securities				302	438
Trading assets				247,596	234,670
Participating interests				206	153
thereof: in banks	11				11
in financial services institutions	57				46
Investments in affiliated companies				29,282	30,774
thereof: in banks	4,914				5,510
in financial services institutions	523				219
Assets held in trust				3,491	2,804
thereof: Loans on a trust basis	313				387
Intangible assets					
a) Self-developed intangible assets			3,151		2,884
b) Purchased intangible assets			240		331
c) Goodwill			12		14
d) Down-payments for intangible assets			0		0
				3,404	3,230
Tangible assets				1,618	1,402
Sundry assets				5,610	5,844
Prepaid expenses					
a) from the issuance and loan business			69		12
b) other			919		924
				988	936
Deferred tax assets				6,698	5,366
Overfunded plan assets				5	5
Total assets				1,060,231	1,052,343

Liabilities and Shareholders' Equity in € m.				Dec 31, 2023	Dec 31, 2022
Liabilities to banks					
a)	registered Mortgage Pfandbriefe issued		60		125
b)	registered public Sector Pfandbriefe issued		0		0

General information

Deutsche Bank AG's legal name is Deutsche Bank Aktiengesellschaft and it is incorporated in Frankfurt am Main. It is registered in the Commercial Register of the District Court Frankfurt am Main under registration number HRB 30000.

The annual financial statements of Deutsche Bank AG for the financial year 2023 have been prepared in accordance with the German Commercial Code ("HGB") as well as the Statutory Order on Banks' and Financial service institutions' Accounts ("RechKredV"). Company-law regulations have been complied with. For the sake of clarity, the figures are reported in million euros (€). Due to rounding, numbers presented throughout this document may not add up precisely to the totals the bank provides and percentages may not precisely reflect the absolute figures.

01 – Basis of preparation

Accounting policies for:

Receivables

Receivables which are held with a trading intent are accounted for as described in the separate paragraph "Trading activities".

Receivables from banks and customers which do not qualify as trading assets are generally reported at their nominal amount or at acquisition cost less necessary impairments. If, in a subsequent period, the amount of the impairment loss decreases and the decrease in impairment can be objectively related to an event occurring after the impairment was recognized, the previously recognized impairment is reversed through the income statement.

Risk provisioning

Provisioning for loan losses comprises impairments and provisions for all identifiable credit and country risks, for inherent default risks and the provision for general banking risks. Provisions for credit risks are reflected in accordance with the prudence principle at the amount of expected losses.

The transfer risk for loans to borrowers in foreign states (country risk) is assessed using a rating system that takes into account the economic, political and regional situation. When recognizing provisions for cross-border exposures to certain foreign states the prudence principle is applied.

Provisions for inherent credit risk are reflected in the form of general value adjustments in accordance with commercial law principles. In addition, general banking risks are provided for pursuant to Section 340f HGB. The offsetting option available under Section 340f (3) HGB has been utilized.

The calculation of expected loss is based on the parameters probability of default (PD), loss given default (LGD) and exposure at default (EAD). For the latter parameter, all risk relevant contracts are included. The calculation of the LGD considers the development of collateral values which are clustered by regions, in particular for properties. Credit risk charges for off-balance exposures such as guarantees and loan commitments are presented as provisions. The credit risk projection is supplemented by macro-economic factors (for example growth rates of GDP and unemployment rates in Europe and the U.S.) to better reflect the portfolio risk.

The bank recognizes a credit loss allowance at an amount equal to 12-month expected credit losses. This represents the portion of lifetime expected credit losses (ECL) from default events that are expected within 12 months of the reporting date, assuming that credit risk has not increased to trigger an impairment.

The bank recognizes an additional credit loss allowance to reflect lifetime expected credit losses for financial assets which are considered to have experienced a significant increase in credit risk since initial recognition. Using the IFRS 9 methodology, this requires the computation of expected credit losses based on lifetime PD, lifetime LGD and lifetime EAD that represents the probability of default occurring over the remaining lifetime of the financial asset.

For those financial assets that are credit-impaired, the bank recognizes a loss allowance at an amount equal to lifetime expected credit losses, reflecting a probability of default of 100%, via the expected recoverable cash flows for the asset.

In July 2023, the Bank completed the migration of Postbank clients into the IT systems of Deutsche Bank, which resulted in a Group-wide alignment of the IFRS 9 impairment model and methodologies, while specific models previously applied for Postbank were decommissioned. This alignment resulted in an immaterial net increase in the allowance for credit losses.

In September 2023, the Bank received approval from authorities to align the Probability of Default (PD) model for large corporates and leveraged lending with regulatory requirements. The model is used for the determination of capital demand under the Basel Internal Ratings Based Approach, for internal risk management practices and is leveraged for IFRS 9 ECL purposes. The related change in estimate reduced the Bank's ECL by € 72 million.

On an ongoing basis and as part of the Group's overall control and governance framework, the Group assesses at each reporting period whether any overlays to its IFRS 9 model are required. This model monitoring framework considers whether there are risks not captured in the model, such as a sudden change in the macroeconomic environment, and identifies any model limitations or routine model enhancements that have not yet been fully reflected. Overall, the model monitoring framework ensures that the Group reports management's best estimate of its expected credit losses at each reporting date.

Securities

Bonds and other fixed income securities as well as equity shares and other variable-yield securities which are held for trading purposes are accounted for as described in the separate paragraph "Trading activities".

Certain bonds and other fixed-income securities for which the intent is to hold them for the foreseeable future are classified as non-current assets and are accounted for using the moderate lower-of-cost-or-market rule. This means that the respective securities are carried at acquisition cost less other than temporary impairment.

If bonds and other fixed-income securities are neither held for the foreseeable future nor form part of the trading portfolio, they are classified as current assets and are accounted for using the strict lower-of-cost-or-market rule. This means that they are carried at the lower of acquisition cost or market respectively attributable value.

The same applies to equity shares and other variable-yield securities which, if they are not part of the trading portfolio, are generally accounted for as current assets.

Securities are written up pursuant to the requirement to reinstate original values if the reason for the write-up can be objectively related to an event occurring after the write-down was recognized.

Embedded derivatives

Some hybrid contracts contain both a derivative and a non-derivative component. In such cases, the derivative component is referred to as embedded derivative, with the non-derivative component representing the host contract. Where the economic characteristics and risks of embedded derivatives are not closely related to those of the host contract, and the hybrid contract itself is not carried as a trading activity at fair value through profit or loss, the embedded derivative is bifurcated following general principles of derivative accounting. The host contract is accounted for at amortized cost or settlement amount.

Credit derivatives

Credit derivatives held or incurred with a trading intent are accounted for as described in the separate paragraph "Trading activities".

Other credit derivatives held which qualify as collateral for incurred credit risk are not accounted for separately, but are rather taken into account in the risk provisioning for the underlying transaction.

Trading activities

Financial instruments (including positive and negative market values of derivative financial instruments) as well as precious metals which are held or incurred with a trading intent are recognized at fair value less risk adjustment. In addition to the value-at-risk adjustment a de-facto limit on profit distribution for net trading P&L exists because each fiscal year a certain portion of net trading revenues has to be allocated to a trading-related special reserve which is part of the fund for general banking risk.

Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between knowledgeable, willing and unrelated parties, other than in a forced sale or liquidation. Where available, fair value is based on observable market prices and parameters or derived from such prices or parameters. The availability of observable data varies by product and market and may change over time. Where observable prices or inputs are not available, valuation techniques appropriate to the particular instrument are applied.

If fair value is estimated by using a valuation technique or derived from observable prices or parameters, significant judgment may be required. Such estimates are inherently uncertain and susceptible to change. Therefore, actual results and the financial position may differ from these estimates.

The fair valuation of financial instruments includes valuation adjustments for close-out costs, liquidity risk and counterparty risk as well as funding considerations for uncollateralized trading derivatives.

In order to reflect any remaining realization risk for unrealized gains, the result of the fair value measurement is reduced by a risk adjustment, which is deducted from trading assets. The risk adjustment is based on the value-at-risk which is calculated using a holding period of ten days and a confidence level of 99%.

The trading-related special reserve is provided for by taking at least 10% of the net trading revenues (after risk adjustment) and must not exceed the total amount of net trading revenues of the respective fiscal year. It has to be provided for until the trading-related special reserve corresponds to 50% of the five-year average of net trading revenues after risk adjustment.

The reserve may only be consumed to either release an amount exceeding the 50% limit or to cover net trading losses.

Financial instruments and precious metals held for trading are separately presented as "Trading assets" or "Trading liabilities" on the face of the balance sheet. Forward contracts to buy or sell commodities do basically not qualify as financial instruments and can therefore not be assigned to trading assets.

Any changes in fair value after risk adjustment of trading instruments are recognized as "Net trading result". Interest income from trading assets and interest expenses from trading liabilities are presented within net interest income.

Under certain conditions, trading derivatives are offset against cash collateral posted by counterparties. On an individual counterparty basis, such derivatives qualify for offsetting which have been contracted under a master agreement with a credit support annex ("CSA") and daily exchange of cash collateral. For each counterparty, the amount offset includes the positive and negative market values of derivatives as well as the collateral paid or received.

Valuation units (hedge accounting)

In instances in which for accounting purposes assets, liabilities, pending transactions or highly probable forecasted transactions (hedged items) and financial instruments (hedging instruments) are designated in a valuation unit to achieve an offset for changes in fair value or cash flows attributable to the hedged risk the general measurement rules are not applicable. Valuation units are recognized generally in form of micro hedges. Statistical analysis, regression analysis and the critical-term-match method are applied to assess prospective effectiveness. The bank generally utilizes the freeze method, which means that offsetting value changes related to the hedged risk are not recorded. Consequently, negative fair value changes related to the same type of risk are not recognized during the period of the hedge unless a net loss, i.e., negative ineffectiveness, arises which is recognized as a provision for imminent losses.

Interest income and interest expense from the hedging instrument (e.g. an interest rate swap) are generally presented net of the interest income/expense of the hedged item in the income statement. This results in a presentation of income and expenses taking into account the hedged result of the valuation unit in its entirety.

For the purpose of hedge accounting physical and derivative trading transactions are also taken into consideration.

Reclassifications

Receivables and securities are classified as trading activities, liquidity reserve or non-current investments at inception.

A reclassification into trading after initial recognition is not permitted and a reclassification from trading activities is only allowed if the intent changes due to exceptional market conditions, especially conditions that adversely affect the ability to trade. Furthermore, financial instruments held with a trading intent may be designated subsequently as hedging instruments into a valuation unit.

A reclassification between the categories liquidity reserve and non-current investments occurs when there is a clear change in management intent after initial recognition which is documented.

The reclassifications are made when the intent changes and at the fair value as of the reclassification date.

Participating interests and investments in affiliated companies

Participating interests are recognized either at cost or utilizing the option available under Section 253 HGB at their lower fair value.

Investments in affiliated companies are accounted for at moderate lower-of-cost-or-market. This means that write-downs are only recognized if the impairment is considered other than temporary.

To determine the fair value of affiliated companies, a discounted cash-flow model is applied. The model discounts the expected free cash-flows for a five-year horizon using a risk-adjusted interest rate. For the time after the five-year period, the sustainable plan development is projected to determine the terminal value. The valuation includes measurable synergies for certain affiliated companies.

Participating interests and investments in affiliated companies are written up pursuant to the requirement to reinstate original values if the reason for the write-up can be objectively related to an event occurring after the write-down was recognized. The offsetting option available under Section 340c (2) HGB has been utilized.

Tangible and intangible assets

Tangible and intangible assets are reported at their acquisition or manufacturing cost less any depreciation or amortization. Self-developed brands, mastheads, publishing titles, customer lists and similar intangible assets are not recognized.

Write-downs are made for any impairment that is likely to be permanent.

Tangible and intangible assets have to be written up if the increase in value can be objectively related to an event occurring after the write-down was recognized.

Low-value assets are written off in the year in which they are acquired.

Derecognition of assets

An asset is generally derecognized when legal ownership is transferred.

However, if the seller irrespective of the asset's legal transfer retains the majority of risks and rewards of ownership, the asset is not derecognized.

Securities lending/borrowing transactions and securities transferred within repurchase agreements remain recognized in the transferor's balance sheet because the transferor remains exposed to the majority of risks and rewards of ownership.

Liabilities

Liabilities are recognized at their settlement or nominal amounts. Zero bonds issued at a discount are reported at their present value, using the original effective interest rate.

Instruments qualifying as additional tier 1 capital

The instruments issued qualify as liabilities and are recognized at their settlement or nominal amount. Interest expense is accrued based on the expected payments to the investors holding the instruments.

Provisions

Provisions for pensions and similar obligations are recognized in accordance with actuarial principles. Pension provisions are calculated using the projected unit credit method and using the average market rate for an assumed remaining term of 15 years as published by the German Federal Bank unless the pension plan's remaining term is shorter.

The bank is employing specific mortality assumptions to determine the defined benefit obligation for its defined benefit pension plans in Germany. The mortality expectations from the "Richttafeln Heubeck 2018G" are adjusted to the Deutsche Bank specific mortality experience of employees and pensioners.

Assets which are exclusively used to settle pensions and similar obligations and which are controlled neither by Deutsche Bank AG nor any creditor (plan assets) are fair valued and offset with the respective provisions. Overfunded obligations are recognized on the balance sheet as a net asset after offsetting of provisions. For underfunded pension obligations and obligations from the bank's internally financed plans, provisions are recognized.

If the settlement amount of pensions and similar obligations is solely based on the fair value of securities held, the provision is measured at the fair value of these securities if the fair value exceeds the guaranteed minimum.

Other provisions for uncertain liabilities or for onerous contracts (excluding trading activities) are recognized at their expected settlement amount applying the principles of prudent commercial judgment. Provisions for uncertain liabilities are discounted if the related cash outflows are not expected to arise within twelve months after the balance sheet date. The unwind of the discounting effect is recognized as interest expense if the provision results from the banking business or as other expense if the provision does not result from the banking business.

The assessment whether to recognize a provision for imminent losses from pending transactions comprises an evaluation whether a net loss is probable to arise for all interest-earning and interest-bearing assets and liabilities, respectively, which are not held with a trading intent, i.e., all positions within the banking book existing as of the reporting date.

The assessment whether a net loss is probable in respect of interest-earning and interest-bearing positions within the banking book requires comparing expected future net interest income and expected future directly attributable fees with expected future funding and credit risk expenses as well as future expected administrative expenses associated with the interest-earning and interest-bearing positions as of the reporting date.

The assessment of a potential provision is aligned with the internal management of the interest-related position in the banking book. For interest-related positions in the banking book a present value-based approach is used and supplemented by an analysis of the historic cost coverage of risk and administrative costs by net interest surpluses for the positions hedged against interest rate risk.

Deferred taxes

Deferred tax assets and deferred tax liabilities on temporary differences between the accounting and the tax base for assets, liabilities and accruals are offset against each other and presented net on the balance sheet as either deferred tax assets or deferred tax liabilities. In determining deferred tax assets unused tax losses are taken into account, but only to the extent that they can be utilized within the following five years.

Treasury shares

If Deutsche Bank AG acquires its own shares (treasury shares) they are deducted at cost from capital and distributable reserves on the face of the balance sheet with no gain or loss being recognized in the income statement.

If such treasury shares are subsequently sold the previously mentioned deduction is reversed and any amount exceeding the original acquisition costs is to be recognized within capital reserves whereas a loss on the subsequent sale is to be recognized in revenue reserves.

Currency translation

Currency translation is consistent with the principles set forth in Sections 256a and 340h HGB.

Assets denominated in foreign currency and treated as fixed assets, but not separately covered in the same currency, are shown at historical cost unless the change in the foreign currency rate is other than temporary so that the assets have to be written down. Other foreign currency denominated assets and liabilities and outstanding cash deals are translated at the mid spot rate at the balance sheet date, and forward exchange deals at the forward rate at the balance sheet date.

The definition of those positions in foreign currency for which the bank applies the special coverage method according to Section 340h HGB reflects internal risk management procedures.

The accounting for gains and losses from currency translation depends on to which foreign currency positions they relate to. Gains and losses from currency translation of trading assets and trading liabilities as well as gains and losses from the translation of positions which are specifically covered are recognized in the income statement. The same applies to foreign currency positions which are not specifically covered but have a remaining term of one year or less. In contrast, for foreign currency positions which are not specifically covered and have a remaining term of more than one year, in accordance with the impairment principle only the losses from currency translation are recognized. The result of currency translation is included in the net trading result and in other operating income and expenses.

The items on the balance sheets and the income statements of foreign branches are translated into euros at mid-rates at the respective balance sheet dates (closing-rate method). The difference arising from translating balance sheet items at the mid spot exchange rate, whereas income statement items are translated at (weighted) average exchange rates is reflected in other operating income or expenses in the income statement.

Contingent liabilities and irrevocable loan commitments

Contingent liabilities and irrevocable loan commitments are presented at their notional amount, net of any cash collateral and provisions recognized in the balance sheet.

The risk of loss from the utilization of contingent liabilities is reduced by the existing ability to assert recourse claims against the relevant customer and is thus based on the customer's credit risk.

Irrevocable loan commitments represent the undrawn portion of lending commitments that cannot be cancelled unconditionally by the bank. They are included in credit risk monitoring.

Notes to the balance sheet

02 – Maturity structure of receivables

in € m.	Dec 31, 2023	Dec 31, 2022
Other Receivables from banks without receivables repayable on demand	82,468	64,509

up to three months	26,679	23,528
more than three months and up to one year	14,841	9,573
more than one year and up to five years	25,497	18,321
more than five years	15,451	13,088
Receivables from customers	435,943	453,762
with a residual period of		
up to three months	165,657	174,112
more than three months and up to one year	45,959	44,929
more than one year and up to five years	99,683	114,367
more than five years	119,422	116,079
with an indefinite period	5,222	4,275

03 – Securities

The table below provides a breakdown of the marketable securities contained in the listed balance sheet positions.

in € m.	listed		unlisted	
	Dec 31, 2023	Dec 31, 2022	Dec 31, 2023	Dec 31, 2022
Bonds and other fixed-income securities	40,517	40,542	30,905	29,932
Equity shares and other variable-yield securities	10	143	56	18
Participating interests	0	0	0	0
Investments in affiliated companies	0	0	0	0
Total	40,527	40,685	30,961	29,950

Of the bonds and other fixed-income securities of € 71.4 billion, € 5.9 billion mature in 2024.

Bonds and other fixed-income securities classified as fixed assets are accounted at amortized cost as Deutsche Bank intends to hold these securities for the foreseeable future. The total carrying amount for these bonds and other fixed-income securities as of the reporting date was € 41.0 billion and related to self-securitizations as well as to Treasury investments in high quality government, supranational and agency bonds. As of December 31, 2023, bonds and other fixed-income securities classified as fixed assets contained assets with a carrying value of € 15.9 billion, for which the current market values were in total by € 1.4 billion lower than the carrying values.

Bonds and other fixed-income securities classified as current assets are accounted, according to the strict lower-of-cost-or-market rule, at acquisition cost or, if lower, their quoted price or fair value. As of December 31, 2023, the net income from these securities was € 435.0 million.

04 – Investments in investment funds

The following table shows a breakdown of holdings in German and foreign investment funds by investment purpose where the fund units held exceeded 10%.

in € m.	Dec 31, 2023			
	Carrying value	Fair value	Difference between fair value and carrying value	Distribution in 2023
Equity funds	0	0	0	0
Bond funds	0	0	0	0
Mixed funds	207	207	0	0
Total	207	207	0	0

The investments in the funds were assigned to trading assets. Their carrying values corresponded to their fair values. There are no restrictions for daily redemption of the fund units.

05 – Transactions subject to sale and repurchase agreements

The carrying amount of assets reported on the balance sheet and sold subject to a repurchase agreement in the amount of € 32.4 billion related exclusively to securities sold under repo agreements.

06 – Trading assets and liabilities

Financial instruments held with a trading intent

The following table provides a breakdown of trading assets and trading liabilities.

Dec 31, 2023 in € m.	Trading assets	in € m.	Trading liabilities
Derivative financial instruments	74,538	Derivative financial instruments	68,794
Receivables	76,153	Liabilities	122,535
Bonds and other fixed-income securities	93,250		
Equity shares and other variable-yield securities	2,606		
Sundry assets	1,191		
Risk adjustment	(143)		
Total	247,596	Total	191,329

The basic assumptions to determine the fair value using accepted valuation methods are presented in detail in the section "Basis of preparation".

Derivatives held for trading purposes that were traded under master netting agreements together with a credit support annex allowing for daily exchange of collateral were netted for each Deutsche Bank AG external counterparty in the balance sheet. The netting for each counterparty encompasses both the carrying amount of the derivatives and the collateral provided. This involved offsetting positive fair values of € 175.4 billion (2022: € 186.2 billion) with negative fair values of € 163.4 billion (2022: € 203.9 billion) on derivatives held for trading with the associated receivables from collateral provided (€ 13.9 billion, 2022: € 33.5 billion) and payables (€ 25.9 billion, 2022: € 15.8 billion) from collateral received. Please refer to the section "Basis of preparation" regarding offsetting.

The subsequent table breaks down the derivatives valued at fair value which correspond to trading derivatives, by type and volume.

in € m.	Notional amount	
	Dec 31, 2023	Dec 31, 2022
OTC products	49,016,618	40,986,375
interest rate-linked transactions	39,769,411	31,696,479
exchange rate-linked transactions	8,013,185	7,692,387
equity- and index-linked transactions	23,344	21,448
credit derivatives	1,116,382	1,511,612
other transactions	94,296	64,450
Exchange-traded products	2,497,769	903,765
interest rate-linked transactions	2,260,876	642,519
exchange rate-linked transactions	16,268	23,656
equity- and index-linked transactions	188,125	212,818
other transactions	32,500	24,772
Total	51,514,387	41,890,141

The amount, timing and the reliability of future cash flows are impacted by the interest rate environment, by the development in the equity and debt markets as well as by credit spreads and defaults.

Method and assumptions and risk adjustment amount

The calculation of the risk adjustment is based on the model to calculate the regulatory value-at-risk which incorporates financial instruments held or incurred for trading purposes. The valuation of trading assets might require various valuation adjustments e.g. for liquidity risks which are explained under "Basis of presentation" in the section "Trading activities".

The calculation of the value-at-risk adjustment ("VaR-adjustment") is based on a holding period of ten days and a confidence level of 99%. The observation period is 261 trading days.

In addition to the regulatory VaR-adjustment the risk adjustment was supplemented by additional risk figures related to Deutsche Bank's own credit risk which is not covered by the VaR calculation.

The absolute amount of the risk adjustment is € 143 million.

Change of criteria for the classification of financial instruments as trading

During the financial year 2023 the criteria related to the assignment of financial instruments to trading assets and liabilities remained unchanged.

07 – Subordinated assets

The table below presents an overview of the subordinated assets contained in the respective balance sheet positions.

in € m.	Dec 31, 2023	Dec 31, 2022
Receivables from banks	5,295	845
Receivables from customers	407	0
Bonds and other fixed-income securities	694	717
Trading assets	8,119	2,281
Total	14,516	3,843

08 – Derivative financial instruments

Forward transactions

Forward transactions outstanding at the balance sheet date consisted mainly of the following types of transactions:

- interest rate-linked transactions: forward deals linked to debt instruments, forward rate agreements, interest rate swaps, interest futures, option rights in certificate form, option deals and option contracts linked to interest rates and indices
- exchange rate-linked transactions: foreign exchange and precious metal forwards, cross-currency swaps, option rights in certificate form, option deals and option contracts linked to foreign exchange and precious metals, foreign exchange and precious metal futures
- share-/index-related transactions: equity forwards and futures, index futures, option rights in certificate form, option deals and option contracts linked to equities and indices
- credit derivatives: credit default swaps (CDS), total return swaps (TRS), credit linked notes (CLN)

The above types of transactions are entered into almost exclusively to hedge interest rate, exchange rate and market price fluctuations in trading activities.

Derivatives not accounted for at fair value

The subsequent table presents derivative financial instruments recorded as banking book derivatives that are generally not accounted for at fair value.

in € m.	Notional amount	Carrying value		Fair value	
		positive	negative	positive	negative
OTC products					
interest rate-related transactions	1,500,194	5,575	3,413	30,521	26,062
exchange rate-related transactions	60,293	260	65	1,064	1,113
credit derivatives	4,861	2	68	14	81
other transactions	43	0	0	0	12
Total	1,565,391	5,837	3,546	31,598	27,268

The carrying values of derivatives generally not recorded at fair value are reported in “Sundry Assets” and “Sundry Liabilities”.

09 – Valuation units (hedge accounting)

Deutsche Bank AG enters into valuation units via fair value hedges, to protect itself essentially through interest rate swaps and options against fair value changes of fixed rate securities resulting from changes in market rates.

In case credit derivatives in the banking book do not qualify for loan collateral treatment, hedge accounting is applied in line with pronouncement IDW RS BFA 1.

Additional risks resulting from derivatives embedded in hybrid financial instruments that can be bifurcated from the host contract are hedged as well via micro hedge relationships.

In addition to the cases described above Deutsche Bank hedges commodity risks via micro- and portfolio-hedge relationships.

The subsequent table provides an overview of the hedged items in valuation units including the amount of hedged risks. For hedged assets and hedged liabilities, the carrying value is presented as well.

in € m.	Dec 31, 2023		Dec 31, 2022	
	Carrying value	Amount of hedged risk	Carrying value	Amount of hedged risk
Hedged assets, total	4,736	(223)	7,596	(598)
Hedged liabilities, total	101,965	2,387	102,184	5,696
	Notional amount	Amount of hedged risk	Notional amount	Amount of hedged risk
Pending transactions	24,716	244	31,202	878

The amount of hedged risk, if negative, represents the cumulative decrease in fair value for assets respectively the cumulative increase of fair value for liabilities since inception of the hedge relationship that were not recognized in profit and loss net, after considering hedges. Positive amounts of hedged risk correspond to the cumulative increase in fair value of assets respectively the cumulative decrease in fair value of liabilities that were not recognized in profit and loss net, after considering hedges.

Using foreign exchange forwards and swaps, Deutsche Bank AG contracts fair value hedges of foreign-exchange risks of its branches dotational capital and profit/loss carried forward representing the net asset value exposed to foreign exchange risk. The carrying amount of the net hedged position amounted to € 17.0 billion. The amount of hedged risk was positive € 0.9 billion. The final offset of the mirroring spot rate changes takes place at the point in time when the dotational capital is redeemed.

In instances where the contractual terms of hedged item and hedging instrument are exactly offsetting, both prospective assessment of effectiveness and retrospective measurement of ineffectiveness of a valuation unit are based on the matching of critical terms. In addition, the bank may utilize statistical methods and regression analysis for the assessment of prospective effectiveness. Deutsche Bank AG compares the amounts of the changes of fair values of hedged items and hedging instruments (dollar-offset method). The valuation units are generally established over the remaining maturity of the hedged items.

10 – Information on affiliated, associated and related companies

in € m.	Affiliated companies		Associated and related companies	
	Dec 31, 2023	Dec 31, 2022	Dec 31, 2023	Dec 31, 2022
Receivables from banks	69,389	54,841	0	0
Receivables from customers	44,265	46,465	41	39
Bonds and other fixed-income securities	26,373	26,386	2	9
Liabilities to banks	35,208	30,173	2	4
Liabilities to customers	24,073	21,888	12	10
Liabilities in certificate form	0	0	0	0
Subordinated liabilities	600	1,087	0	0

A complete list of the Shareholdings of Deutsche Bank AG (including companies, where the holding equals or exceeds 20% and holdings in large corporations, where the holding exceeds 5% of the voting rights) can be found in the Note "Shareholdings".

11 – Trust business

Assets held in trust

in € m.	Dec 31, 2023	Dec 31, 2022
Receivables from banks	3,175	2,417
Receivables from customers	316	387
Total	3,491	2,804

Liabilities held in trust

in € m.	Dec 31, 2023	Dec 31, 2022
Liabilities to banks	197	251
Liabilities to customers	3,293	2,553
Total	3,491	2,804

Receivables from banks are mainly related to deposits from customers placed on their behalf with third party banks. Receivables from customers are mainly loans which were funded by development banks or public bodies for specific purposes.

12 – Fixed assets

The following schedule shows the changes in fixed assets.

in € m.	Acquisition/manufacturing costs			Depreciation/amortization, write-downs and value adjustments			Book value	
	Balance at Jan 1, 2023	Additions / Transfers	Disposals	Cumulative	therein current year	therein disposals	Balance at Dec 31, 2023	Balance at Dec 31, 2022
Intangible assets	10,472	1,236	6	8,298	1,041	8	3,404	3,230
Self-developed intangible assets	8,297	1,202 ¹	5	6,343	914	7	3,151	2,884

Leasing assets	0	0	0	0	0	0	0	0
Changes								
Participating interests			53				206	153
Investments in affiliated companies			(1,491) ³				29,282	30,774
Money market instruments			0				0	0
Bonds and other fixed-income securities			(2,849)				40,974	43,823
thereof: included in valuation units according to Section 254 HGB			0				0	0
Equity shares and other variable-yield securities			0				0	0
thereof: included in valuation units according to Section 254 HGB			0				0	0

The option to combine financial assets pursuant to Section 34 (3) RechKredV has been utilized. Exchange rate changes at foreign branches resulting from currency translation at closing rates have been recognized in acquisition/manufacturing costs (balance at January 1, 2023) and in cumulative depreciation/amortization, write-downs and value adjustments

¹ Additions to self-developed intangible assets relate to self-developed software

² Land and buildings were used as part of our own activities

³ Investments in affiliated companies decreased by € 1.5 billion to € 29.3 billion; this decrease was attributable to write-downs (€ 0.9 billion), capital repayments (€ 0.8 billion), the merger of an affiliated company into Deutsche Bank AG (€ 0.4 billion), and a negative impact of foreign currency translation (€ 0.3 billion), partly offset by a purchase of affiliated companies (€ 0.5 billion) and capital increases (€ 0.4 billion)

Intangible assets

The goodwill reported under intangible assets is amortized over its estimated useful life of between five and 10 years. Its determination is based on economic and organizational factors such as future growth and profit prospects, nature and duration of expected synergies, leveraging customer base and assembled workforce of the acquired business. Software classified as an intangible asset is amortized over its useful life, which extends over a period of up to 10 years.

13 – Sundry assets

Sundry assets of € 5.6 billion mainly consisted of receivables from collateral of € 2.3 billion, tax claims of € 1.0 billion, receivables from profit pooling agreements of € 1.1 billion and balloon-payments from swaps of € 0.5 billion.

14 – Prepaid expenses and deferred income

Prepaid expenses included discounts between the issuance and redemption amount for liabilities according to Section 250 (3) HGB of € 102 million.

Deferred income included discounts according to Section 340e (2) HGB in the amount of € 110 million.

15 – Deferred taxes

Deferred taxes are determined for temporary differences between carrying amounts of assets, liabilities and accruals according to HGB accounting and their tax bases when it is anticipated that such differences will reverse in subsequent reporting periods. In this context, temporary differences of consolidated tax group subsidiaries/partnerships where Deutsche Bank AG is a shareholder/partner are included in the determination of Deutsche Bank AG's deferred taxes as well. In addition unused tax losses are taken into account when determining deferred tax assets to the extent that they will be utilized within the following five years.

In December 2021, the Organization for Economic Co-Operation and Development (OECD) issued Global Anti-Base Erosion and Profit Shifting Rules under the Pillar 2 Framework. The Global Minimum Taxation Rules or Pillar Two rules are applicable to Deutsche Bank starting in 2024, with Deutsche Bank AG as the ultimate parent. In December 2023, new Section 274 (3) HGB was enacted to introduce a mandatory temporary exception to the accounting for deferred taxes arising from the implementation of Pillar 2 model rules. These rules and the corresponding disclosure requirements according to Section 285 No. 30a HGB are applicable for fiscal 2023.

The measurement of deferred taxes is based on the combined income tax rate of the tax group of Deutsche Bank AG which is currently 31.3%. The combined income tax rate includes corporate tax, trade tax and solidarity surcharge.

By contrast, deferred taxes arising from temporary differences in German investments in the form of a partnership are measured based on a combined income tax rate which includes only the corporate income tax and solidarity surcharge; this currently amounts to 15.83%.

Deferred taxes in foreign branches are measured with the applicable statutory tax rates which are mainly within a range of 20% and 33%.

In the reporting period an overall deferred tax asset of € 6.7 billion was presented on the balance sheet. Significant contributors were – Deutsche Bank AG – “domestic bank”, including deferred taxes of consolidated tax group subsidiaries, Deutsche Bank AG New York Branch and Deutsche Bank AG London Branch. These are mainly based on unused tax losses and temporary differences, the latter mainly relating to staff related obligations and fair value measurements of loan portfolios and trading books.

16 – Maturity structure of liabilities

in € m.	Dec 31, 2023	Dec 31, 2022
Liabilities to banks with agreed period or notice period	75,985	85,056
with a residual period of		
up to three months	30,681	40,761
more than three months and up to one year	21,522	20,908
more than one year and up to five years	10,953	11,549
more than five years	12,829	11,838
Savings deposits with agreed notice period of more than three months	22,909	2,818
with a residual period of		
up to three months	4,050	1,194
more than three months and up to one year	18,677	1,567
more than one year and up to five years	180	57
more than five years	2	0
Other liabilities to customers with agreed period or notice period	149,016	120,625
with a residual period of		
up to three months	92,735	62,016
more than three months and up to one year	40,864	40,713
more than one year and up to five years	7,886	11,121
more than five years	7,531	6,775
Other liabilities in certificate form	6,545	3,246
with a residual period of		
up to three months	904	830
more than three months and up to one year	5,596	2,415
more than one year and up to five years	45	2
more than five years	0	0

Of the issued bonds and notes of € 85.6 billion, € 16.6 billion mature in 2024.

17 – Liabilities for which assets were pledged as collateral

For the following liabilities assets were pledged as collateral in the amount stated in the table.

in € m.	Dec 31, 2023	Dec 31, 2022
Liabilities to banks	14,505	22,924
Liabilities to customers	940	841
Trading liabilities	14,627	1,918
Other liabilities	0	0
Total	30,072	25,683

18 – Sundry liabilities

Sundry liabilities of € 34.4 billion mainly contained liabilities due to failed derecognition amounting to € 28.5 billion, FX revaluation effects for dotational capital and P&L carried forward amounting to € 1.1 billion and operating expenditure to be paid amounting to € 1.0 billion.

19 – Pensions and similar obligations

Deutsche Bank AG sponsors post-employment benefit plans for its employees (pension plans) which contain defined contribution as well as defined benefit plans.

The majority of the beneficiaries of these pension plans are located in Germany. The value of a participant's accrued benefit is based primarily on each employee's remuneration and length of service.

December 31 is the measurement date for all defined benefit plans. All plans are valued using the projected unit-credit method. The valuation requires the application of certain actuarial assumptions such as demographic developments, increase in remuneration for active staff and in pensions as well as inflation rates. The discount rate is determined pursuant to the rules of Section 253 (2) HGB.

Assumptions used for pension plans	Dec 31, 2023	Dec 31, 2022
Discount rate	1.69 %	1.62 %
Inflation rate	2.44 %	2.64 %
Rate of nominal increase in future compensation levels	2.62 %	2.83 %
Rate of nominal increase for pensions in payment	2.91 %	3.02 %
Mortality/disability tables	modified Richttafeln Heubeck 2018 G	modified Richttafeln Heubeck 2018 G

The obligations from these defined benefit pension benefits are, for the most part, externally funded. Overfunded obligations are recognized on the balance sheet as a net asset after netting of provisions. For underfunded pension obligations and obligations from the bank's internally financed plans, the relevant provisions are recognized.

For defined contribution plans in Germany, where Deutsche Bank AG and other financial institutions are members of BVV, the subsidiary liability of employers covers the benefit payments and their legally required increases.

Furthermore, provisions are recognized for other similar long-term obligations, primarily in Germany, for example, for anniversary years of service or early retirement schemes. The bank funds these plans on a cash basis as the benefits are due.

in € m.	Pension plans	
	Dec 31, 2023	Dec 31, 2022
Pension obligation (recognized in the Financials)	10,493	10,620
Notional pension obligation based on 7-year-average discount rate	10,575	11,098
Income recognized due to discount rate difference	81	478
Fair value of plan assets	8,508	8,385
thereof:		
cost of plan assets	8,958	9,729
total of unrealized gains within plan assets	1	0
Net overfunded amount at year end	(1,986)	(2,236)
Net pension asset	(1,986)	(2,236)
thereof:		
recognized as "Overfunded plan assets related to pension plans"	5	5
recognized as "Provisions for pensions and similar obligations"	1,991	2,241

As in prior year, the valuation principles according to §253 (6) HGB resulted in a valuation difference between the defined benefit obligation recognized in the financials using the 10-year-average discount rate and the 7-year-average discount rate. This difference of € 81 million is subject to dividend blocking provisions.

in € m.	Pension plans	
	2023	2022
Return from plan assets	515	(1,115)
Interest costs for the unwind of discount of pension obligations	74	360
Net interest income (expense)	442	(1,476)
thereof: recognized as "Other operating income"	442	4
thereof: recognized as "Other operating expenses"	(1)	(1,479)

20 – Other provisions

in € m.	Dec 31, 2023	Dec 31, 2022
Provisions for loan losses	350	534
Provisions for imminent losses	192	241
Remaining other provisions	3,934	3,984
Total other provisions	4,477	4,759

The remaining Other Provisions are set for the following (main) types of risk:

Staff related provisions have been set up to reflect additional compensation and benefits to employees. They relate to variable payments and deferred compensation, share-based compensation, obligations for early retirement and others. The amount totaled € 2.8 billion as of year end 2023.

Restructuring provisions arise out of restructuring activities. The Group's strategic transformation aims to significantly improve sustainable returns to shareholders by focusing on our core businesses, reducing our adjusted costs and enabling faster decision making and execution. The provision for these activities was € 225 million as of year end 2023.

Regulatory Enforcement provisions arise out of current or potential claims or proceedings alleging non-compliance with legal or regulatory responsibilities, which have resulted or may result in an assessment of fines or penalties by governmental regulatory agencies, self-regulatory organizations or other enforcement authorities. The provision for this risk was € 95 million as of year end 2023.

Civil Litigation provisions arise out of current or potential claims or proceedings alleging non-compliance with contractual or other legal or regulatory responsibilities, which have resulted or may result in demands from customers, counterparties or other parties in civil litigations. The provision for this risk is € 532 million as of year end 2023.

Operational provisions arise out of operational risk and exclude civil litigation and regulatory enforcement provisions, which are presented as separate classes of provisions. The provision for this risk was € 15 million as at year end 2023. Operational risks include losses resulting from inadequate or failed internal processes, people and systems, or from external events.

Sundry provisions amounted to € 289 million as of year end 2023.

21 – Subordinated liabilities

Contractually subordinated liabilities are issued in the form of fixed rate and floating rate securities, registered and bearer bonds and borrower's note loans and have original maturities mostly within ten and 20 years.

Deutsche Bank AG is not obliged to redeem subordinated liabilities in advance of the specified maturity date, however in some cases early redemption at the issuer's option is possible. In the event of liquidation or insolvency, the receivables and interest claims arising from these liabilities are subordinate to the non-subordinated receivables of all creditors of Deutsche Bank AG. The conversion of these funds into equity or another form of debt is not anticipated under the terms of the notes. These conditions also apply to subordinated liabilities not specified individually.

Material subordinated liabilities above € 1.0 billion

Currency	Amount in million	Type	Year of issuance	Coupon	Maturity ¹
€	1,250	Bearer bond	2015	2.750 %	02/17/2025
U.S.\$	1,500	Bearer bond	2015	4.500 %	04/01/2025
€	1,250	Bearer bond	2020	5.625 %	05/19/2031
U.S.\$	1,250	Bearer bond	2021	3.729 %	01/14/2032
U.S.\$	1,250	Bearer bond	2022	3.742 %	01/07/2033
€	1,500	Bearer bond	2022	4.000 %	06/24/2032
U.S.\$	1,500	Bearer bond	2023	7.079 %	02/10/2034

¹ Maturity date of bonds; bonds have some extraordinary call features, which are subject to approval by regulators or changes in tax laws

Expenses for all contractually subordinated liabilities of € 12.5 billion totaled € 428 million, including results from hedging derivatives. Accrued but not yet paid interest of € 248 million included in this figure is reported in sundry liabilities.

In addition, certain liabilities are subordinated by law according to section 46f para 6 German Banking Act, if their original maturity is above one year and the redemption amount or interest amount is not dependent on events uncertain at the time of issuance. These non-preferred liabilities amount to € 46.6 billion as of December 2023.

22 – Participation rights capital

Currency	Amount in million	Type	Year of issuance	Coupon	First call date
€	20	Dt. Postbank Namensgenussschein Nr. 032	05.03.2007	5.250 %	12/31/2026

23 – Instruments for Additional Tier 1 Regulatory Capital

As of December 31, 2023 Additional Tier 1 Notes (the “AT1 Notes” or “Notes”) amounted to € 8.9 billion compared to € 9.0 billion last year. Interest expense on the notes for 2023 totaled € 560 million and included € 381 million of accrued interest as of year-end 2023, which was recorded within other liabilities.

The AT1 Notes constitute unsecured and subordinated notes of Deutsche Bank. The Notes bear interest on their nominal amount from the issue date to the next reset date at a fixed annual rate. Thereafter the interest rate will be reset at five year intervals. The Notes contain features that may require Deutsche Bank and will permit Deutsche Bank in its sole and absolute discretion at all times and for any reason to cancel any payment of interest. If cancelled, interest payments are non-cumulative and will not increase to compensate for any shortfall in interest payments in any previous year. The Notes do not have a maturity date. They are redeemable by Deutsche Bank at its discretion on the respective next call date and at defined call dates thereafter or in other limited circumstances. In each case, the Notes are subject to limitations and conditions as described in the terms and conditions for example, the Notes can be redeemed by Deutsche Bank at its discretion, in whole but not in part, for certain regulatory or taxation reasons. Any redemption is subject to the prior consent of the competent supervisory authority. The redemption amount and the nominal amount of the Notes may be written down upon the occurrence of a trigger event. A trigger event occurs if the Common Equity Tier 1 capital ratio of Deutsche Bank Group, determined on a consolidated basis falls below 5.125%. The Notes may also be written up, following a trigger event, subject to meeting certain conditions.

AT1 Notes outstanding as of December 31, 2023

Currency	Amount in million	Type	Year of issuance	Coupon	Next call date
U.S.\$	1,250	Undated Non-cumulative Fixed to Reset Rate Additional Tier 1 Notes	2014	4.789 %	4/30/2025

24 – Foreign currencies

The total amount of assets denominated in foreign currencies was equivalent to € 452.8 billion at the balance sheet date; the total value of liabilities was equivalent to € 334.7 billion.

25 – Capital and reserves

Own shares

In the course of 2023, the bank or its affiliated companies did not hold or acquire own shares pursuant to Section 71 (1) No. 7 AktG (trading purpose).

The bank was authorized to buy own shares by the General Meetings of May 17, 2023 (authorization until April 30, 2028) and of May 19, 2022 (authorization until April 30, 2027) pursuant to Section 71 (1) No. 8 AktG including the withdrawal of own shares according to Sections 237, 238 and 239 AktG. The respective limitations (up to 10% of total number of common shares) were adhered to for each purchase and sale transaction.

In addition, the Annual General Meeting of May 17, 2023 authorized the Management Board pursuant to Section 71 (1) No. 8 AktG to execute the purchase of shares under the resolved authorization also with the use of put and call options or forward purchase contracts. The limitations concerning the use of such derivatives were adhered to for each purchase and sale transaction.

Deutsche Bank AG and its affiliated companies holdings pursuant to Section 71 (1) No. 8 AktG amounted to 48,195,109 shares (2.4% of its share capital), thereof 45,541,366 shares repurchased to be cancelled in 2024. On December 31, 2023, 15,499,710 (end of 2022: 7,543,254) Deutsche Bank shares, i.e. 0.76% (end of 2022: 0.36%) of the share capital were pledged to the bank or its affiliated companies as collateral.

Changes in subscribed, authorized and conditional capital

The bank's subscribed capital is divided into 2,040,242,959 registered no-par-value shares and each share has a nominal value of € 2.56. Excluding holdings of the bank's own shares, the number of shares outstanding at December 31, 2023 was 1,992,047,850 (end of 2022: 2,037,841,513). The average number of shares outstanding in the reporting period was 2,015,004,950.

in €	Subscribed capital ¹	Authorized capital	Conditional capital (yet to be utilized)
Balance as of Dec 31, 2022	5,290,939,215.36	2,560,000,000.00	0
Cancellation pursuant to the General Meeting resolution of May 19, 2022	(67,917,240.32)	0	0
Balance as of Dec 31, 2023	5,223,021,975.04	2,560,000,000.00	0

¹ Includes nominal value of treasury shares

Details with regard to the authorized capital are presented in the combined management report concerning the Information pursuant to Section 315a (1) of the German Commercial Code.

Changes in capital and reserves

in € m.		
Balance as of Dec 31, 2022		39,625
Cancellation of shares		
– Change in subscribed capital		(68)
– Change in revenue reserve		(232)
Distribution in 2023		(610)
Profit carried forward		(459)
Treasury shares		
– Change in notional value in treasury shares	(49)	
– Change of acquisition costs	(100)	
– Realized net gains (non-trading)	0

– Realized net losses (non-trading)	(12)	(161)
Addition to revenue reserve		2,000
Distributable profit (loss) for 2023		3,458
Balance as of Dec 31, 2023		43,552

Considering the addition to revenue reserves in the amount of € 2.0 billion, the remaining distributable profit amounted to € 3.5 billion as of December 31, 2023. The bank will propose to the shareholders at the Annual General Meeting to pay a dividend of 45 € cent per share, appropriate additional € 2.0 billion to revenue reserves and to carry forward the remaining distributable profit.

26 – Off-balance sheet transactions

The bank discloses contingent liabilities and irrevocable loan commitments as off-balance sheet transactions as far as no provisions have been established for them. The decision, whether the disclosure of the contingent liabilities and irrevocable loan commitments will be shown off-balance sheet or recognized as provisions is taken upon the result of the evaluation of the credit risk. Contingent liabilities and irrevocable loan commitments are also reduced by the amount of cash collateral received, which is recorded as liability on the balance sheet.

The risk of losses from claims under contingent liabilities is mitigated by the possibility to recourse towards the respective customer and hence is based predominantly on the credit risk of the customer.

The bank evaluates the risk of losses from claims under contingent liabilities and irrevocable credit commitments before irrevocably entering into an obligation within a credit risk assessment of the customer or using an assessment of the customer's expected compliance with the underlying obligation. Additionally, the bank regularly assesses during the lifetime of the commitment whether losses are expected from claims under contingent liabilities and irrevocable loan commitments. In certain circumstances the bank requests the provision of collateral to reduce the risk of losses from claims. Loss amounts assessed within such evaluations are recorded as provisions.

Irrevocable loan commitments

Irrevocable loan commitments amounted to € 158.2 billion as of December 31, 2023 and included commitments of € 156.1 billion for loans and discounts in favor of non-banks.

Deutsche Bank AG enters into irrevocable loan commitments to meet the financing needs of its customers. Irrevocable loan commitments represent the undrawn portion of Deutsche Bank's obligation to grant loans which cannot be withdrawn by Deutsche Bank. These commitments are shown with the contractual amount after consideration of cash collateral received and provisions as recorded on the balance sheet. The amounts stated above do not represent expected future cash flows as many of these contracts will expire without being drawn. Even though the irrevocable loan commitments are not recognized on the balance sheet, Deutsche Bank AG considers them in monitoring the credit exposure. If the credit risk monitoring provides sufficient indication about a loss from an expected drawing, a provision is established.

Deutsche Bank AG is engaged in various business activities with certain entities, referred to as special purpose entities ("SPEs"), which are designed to achieve a specific business purpose. The principal uses of SPEs are to provide clients with access to specific portfolios of assets and risks and to provide market liquidity for clients through securitizing financial assets. Typically, Deutsche Bank AG will benefit by receiving service fees and commissions for the creation of the SPEs, or because it acts as investment manager, custodian or in some other function. SPEs may be established as corporations, trusts or partnerships. While the bank's involvement with these entities can take many different forms, it consists primarily of liquidity facilities, which are disclosed off balance sheet as irrevocable loan commitments within "other obligations" below the line of the balance sheet. Deutsche Bank AG provides financial support to SPEs in connection with commercial paper conduit programs, asset securitizations, mutual funds and real estate leasing funds. Such vehicles are critical to the functioning of several significant investor markets, including the mortgage-backed and other asset-backed securities markets, since they offer investors access to specific cash flows and risks created through the securitization process. As of December 31, 2023, Deutsche Bank AG's exposure has not had a material impact on its debt covenants, capital ratios, credit ratings or dividends.

Contingent liabilities

In the normal course of business Deutsche Bank AG enters regularly into guarantees, letters of credit and credit liabilities on behalf of its customers. Under these contracts Deutsche Bank AG is required to make payments to the beneficiary based on third party's failure to meet its obligations or to perform under an obligation agreement. For such contingencies it is not known to the bank in detail, if, when and to which extent claims will be made. If the credit risk monitoring provides sufficient perception about a loss from an expected drawing, a provision is recognized.

The following table shows the total potential payments under guarantees, letters of credit and credit liabilities after deduction of cash collateral and provisions recorded on the balance sheet. It shows the maximum amount of the potential utilization of Deutsche Bank AG in case all obligations entered into must be fulfilled and at the same time all recourse claims to the customers are not satisfied. The table therefore does not show the expected future cash flows from these contracts as many of these agreements will expire without being drawn or drawings will counterbalanced by recourse to the customer.

in € m.	Dec 31, 2023	Dec 31, 2022
Guarantees	48,886	51,996
Letters of credit	3,464	3,701
Credit liabilities	7,831	7,089
Total	60,181	62,786

27 – Sundry obligations

Purchase obligations

Purchase obligations are legally enforceable and binding agreements to purchase goods or services at pre-defined terms such as minimum quantities or prices. When Deutsche Bank AG enters into such agreements there is the potential risk that terms and conditions of the contract are less favorable than terms and conditions at the time the goods or services are delivered or that related costs are higher than the economic benefit received. In case of an anticipated loss, Deutsche Bank AG may set aside a provision for onerous contracts.

Purchase obligations for goods and services amount to € 3.9 billion as of December 31, 2023, which include future payments for, among others, services such as information technology and facility management.

Leases are contracts in which the owner of an asset (lessor) grants the right to use this asset to another party (lessee) for a specific period of time in return for regular payments. A leasing contract is classified as Operating Lease if the agreement includes a limited or unlimited right of termination for the lessee. All main risks and benefits linked with the ownership of the asset remain with the lessor, the lessor remains economic owner. Operating leases provide an alternative to ownership as they enable the lessee to benefit from not having its resources invested in the asset. Deutsche Bank AG's existing obligations arising from operating leases involve rental and leasing agreements for buildings, office furniture and equipment. The majority of these are leasing agreements for buildings, where Deutsche Bank AG is the lessee. As of December 31, 2023 payment obligations under rental agreements and leases amounted to € 4.8 billion (thereof € 0 million were related to subsidiaries) and had residual maturities of up to 25 years.

Irrevocable payment commitments with regard to levies and deposit protection

The bank is required to make contributions to international resolution authorities or deposit protection schemes such as the European Single Resolution Fund (SRF) of the Single Resolution Board (SRB). Part of such contributions may be provided in the form of irrevocable payment commitments (IPCs) backed by cash or securities collateral.

IPCs related to the bank levy according to the Bank Recovery and Resolution Directive (BRRD), the SRF and the deposit protection provided by the German deposit protection fund amounted to € 1.4 billion as of December 31, 2023 (December 31, 2022: € 1.2 billion). Thereof € 1.0 billion of IPCs related to the SRF (December 31, 2022: € 0.8 billion).

During 2023, the bank provided additional IPCs of € 118 million to the SRF and € 46 million to the German deposit protection fund, respectively.

As of December 31, 2023, the total collateral consisted of € 1.3 billion of cash collateral and € 81 million of securities collateral (December 31, 2022: € 1.1 billion and € 78 million respectively). Thereof € 962 million of cash collateral related to the SRF (December 31, 2022: € 844 million).

The bank accounts for IPCs as contingent liabilities as it is not deemed probable that IPCs will be called. Also, the bank remains the economic owner of the collateral provided.

In October 2023, in a matter unrelated to Deutsche Bank, the General Court of the EU handed down a judgement which supported the SRB in its view that in case an entity that no longer falls within the scope of the Single Resolution Mechanism, its IPCs are cancelled and collateral backing these commitments is only returned if the entity pays a cash contribution to the SRF at the same amount. The plaintiff filed an appeal against this judgement to the Court of Justice of the EU in January 2024. The bank is of the view that its accounting analysis for IPCs with regard to the SRF and deposit protection remains unaffected as of December 31, 2023, and continues to monitor the legal developments and their potential accounting impact.

Other contingencies

As of December 31, 2023 unamortized deferred variable compensation costs amount to € 0.4 billion.

Liabilities for possible calls on not fully paid-up shares in public and private limited companies and other shares amounted to € 22 million at the end of 2023, of which € 15 million were related to a subsidiary.

Pursuant to Section 5 (10) of the Statute of the Deposit Protection Fund Deutsche Bank AG has undertaken to indemnify Bundesverband deutscher Banken e.V., Berlin, for any losses incurred through measures taken in favor of banks majority-held or controlled by Deutsche Bank AG.

Obligations arising from transactions on futures and options exchanges and towards clearing houses for which securities were pledged as collateral amounted to € 2.5 billion as of December 31, 2023.

Additional other contingent liabilities amount to € 74 million.

Notes to the income statement

28 – Income by geographical market

The total amount of interest income, of current income from equity shares and other variable-yield securities, participating interests and investments in affiliated companies, of commission income, of net trading result and of other operating income is originated across various regions as shown by the following breakdown pursuant to Section 34 (2) RechKredV.

in € m.	Dec 31, 2023	Dec 31, 2022
Germany	42,778	18,621
Europe excl. Germany	20,085	16,065
Americas	9,963	5,491
Africa/Asia/Australia	5,284	3,970
Total	78,111	44,146

The overall increase compared to 2022 was mainly driven by higher interest income in Germany and Americas. Both regions benefitted from rising interest rates with other regions showing comparatively lower increases.

The improved net trading result is mainly attributable to Europe excluding Germany.

Commission income and other operating income were essentially flat.

29 – Interest income and interest expenses

Interest income from lending and money market business included € 30 million of negative interest, i.e. interest expenses on receivables which were mainly related to receivables from banks and to trading assets. Interest expenses included € 76 million of negative interest, i.e. interest income on liabilities which was mainly related to liabilities to banks.

30 – Administrative and agency services provided for third parties

The following administrative and agency services were provided for third parties: custody services, referral of mortgages, insurance policies and home savings contracts, administration of assets held in trust, and asset management.

31 – Other operating income and expenses

Other operating income of € 6.1 billion included the result from non-trading derivatives of € 4.6 billion, net interest income from defined benefit plans of € 0.4 billion and releases of provisions of € 0.4 billion.

Other operating expenses of € 5.2 billion mainly includes the result from non-trading derivatives of € 4.3 billion and expenses for provisions of € 0.2 billion.

32 – Extraordinary result

Extraordinary income of € 1 million related to restructuring activities. (2022: gain of € 114 million). Extraordinary expenses of € 158 million reflected restructuring activities (2022: expenses of € 19 million).

Extraordinary income and expenses netted to an extraordinary result of negative € 157 million (2022: € 95 million).

33 – Taxes

In 2023, the bank recorded a tax benefit of € 646 million compared to a benefit of € 1.8 billion in the prior year. The current year's tax benefit was mainly driven by changes in the recognition and measurement of deferred tax assets.

The Global Minimum Taxation Rules or Pillar Two rules that were transposed into German law ("Mindeststeuergesetz" or "MinStG") on December 27, 2023, are applicable to Deutsche Bank starting in 2024, with Deutsche Bank AG as the ultimate parent. Pillar Two global information reports and respective tax returns for 2024 are not due until June 2026. To the extent applicable, Deutsche Bank AG must remit a Pillar Two liability calculated for a jurisdiction to the German tax authorities, unless that jurisdiction enacts its own set of Pillar Two rules. However, temporary relief from the detailed Pillar Two calculations, which is determined on a jurisdiction-by-jurisdiction basis, may be available under transitional safe harbor provisions. These safe harbor provisions apply to tax years 2024-2026 and are based on the bank's Country-by-Country Reports filed annually with the German tax authorities and certain other financial data. While uncertainties remain regarding the application of the Pillar Two rules, further legislative developments and interpretative guidance in many countries are expected over time, and implementation efforts are ongoing, Deutsche Bank has assessed the potential impact on its financial position for 2024 on a best effort basis. The assessment considered a number of qualitative and quantitative factors. For one, Deutsche Bank's blended statutory tax rate is significantly higher than the minimum tax rate of 15%. In addition, only a few countries apply a statutory tax rate of less than 15% to the bank's operations. Furthermore, based on an analysis of the most recently available Country-by-Country Report, it is estimated that Deutsche Bank AG will qualify for relief under the transitional safe harbor provisions in most of the jurisdictions it operates in. As a result, Deutsche Bank AG estimates that it will not be subject to a material Pillar Two liability in 2024.

34 – Information regarding amount blocked according to sections 253 (6) and 268 (8) HGB

The following table presents the amounts pursuant to sections 253 (6) HGB and 268 (8) HGB that should be considered for profit distribution. Total distributable reserves of € 14.0 billion plus the distributable profit of € 3.5 billion are covering the amounts blocked as of December 31, 2023. The individual positions below include deferred tax liabilities, if applicable; therefore, the amounts shown in the table may deviate from the corresponding balance sheet positions.

in € m.	Dec 31, 2023	Dec 31, 2022
Deferred tax assets	7,154	5,895
Self-developed intangible assets	2,720	2,504
Valuation difference related to discounting of provisions for pension obligations	56	329
Unrealized gains of plan assets	1	0
Total undistributable amount	9,931	8,728

35 – Shareholdings

- 30 Companies, where the holding exceeds 20 %
- 38 Holdings in large corporations, where the holding exceeds 5 % of voting rights

The following pages show the Shareholdings of Deutsche Bank AG pursuant to Section 285 Number 11 HGB including information pursuant to Section 285 Number 11a HGB. Pursuant to Section 286 (3) Sentence 1 Number 1 HGB, Deutsche Bank AG does not disclose own funds and annual result of individual holdings to the extent that those disclosures are insignificant for the presentation of assets and liabilities, financial position, and results of operations of Deutsche Bank AG.

Footnotes:

- 1 Profit and loss transfer agreement, annual result is not disclosed.
- 2 Own funds and annual result of business year 2022; local GAAP figures for business year 2023 are not yet available.
- 3 Own funds and annual result of the subgroup. The following companies starting with a dash are part of the subgroup; their own funds and annual result are incorporated in the subgroup data.
- 4 Status as shareholder with unlimited liability pursuant to Section 285 Number 11a HGB.
- 5 General Partnership.

Companies, where the holding exceeds 20%

38 – Information pursuant to section 160 (1) number 8 AktG

As of December 31, 2023, Deutsche Bank was aware of the following shareholders who reported a share of at least 3% in the voting rights each pursuant to Section 33 of the German Securities Trading Act (Wertpapierhandelsgesetz):

BlackRock, Inc., Wilmington, DE, has notified Deutsche Bank that as of March 31, 2023 it held 5.38% of the bank's shares. Deutsche Bank has received no further notification by BlackRock, Inc., Wilmington, DE, through December 31, 2023.

Paramount Services Holdings Ltd. S.À.R.L., British Virgin Islands, has notified Deutsche Bank that as of January 25, 2023 it held 4.54% of the bank's shares. Deutsche Bank has received no further notification by Paramount Services Holdings Ltd. S.À.R.L., British Virgin Islands, through December 31, 2023.

Douglas L. Braunstein (Hudson Executive Capital LP), has notified Deutsche Bank that as of November 20, 2020 he held 3.18% of the bank's shares. Deutsche Bank has received no further notification by Douglas L. Braunstein (Hudson Executive Capital LP), through December 31, 2023.

Supreme Universal Holdings Ltd., Cayman Islands, has notified Deutsche Bank that as of August 20, 2015 it held 3.05% of the bank's shares. Deutsche Bank has received no further notification by Supreme Universal Holdings Ltd., Cayman Islands, through December 31, 2023.

39 – Management Board and Supervisory Board

The members of the Management Board collectively received in the 2023 financial year a total compensation of € 55,004,064 (2022: € 52,870,209). Former members of the Management Board of Deutsche Bank AG or their surviving dependents received € 26,222,817 and € 22,974,014 for the years ended December 31, 2023 and 2022, respectively. Provisions for pension obligations to former members of the Management Board and their surviving dependents amounted to € 182,659,862 and € 187,137,298 at December 31, 2023 and 2022, respectively.

The Supervisory Board compensation is regulated in Section 14 of the Articles of Association of Deutsche Bank AG. New compensation provisions were last adopted by resolution at the Annual General Meeting on May 17, 2023. The total compensation for the members of the Supervisory Board in 2023 was € 7,404,172 (2022: € 6,833,333). The bank does not provide members of the Supervisory Board with any benefits after they have left the Supervisory Board.

Loans and advances granted, and contingent liabilities assumed for members of the Management Board amounted to € 28,429 and € 4,514,404 and for members of the Supervisory Board of Deutsche Bank AG to € 638,839 and € 939,889 for the years ended December 31, 2023 and 2022, respectively. Members of the Supervisory Board repaid € 62,058 loans in 2023 (2022: € 93,153). Any loans to members of the Management Board and members of the Supervisory Board are granted at market terms and conditions, or, if applicable, at the terms and conditions of programs widely available to employees of the bank.

The members of the Management Board and the Supervisory Board are listed on pages XX to XX.

40 – Employees

The average number of full-time equivalent staff employed during the reporting year was 36,285 (2022: 35,325), 15,481 of whom were women (2022: 15,002). Part-time employees are included proportionately in these figures based on their working hours. An average of 13,384 (2022: 13,108) staff members worked at branches outside Germany.

41 – Corporate Governance

The Management Board and Supervisory Board of Deutsche Bank AG in October 2023 issued the declaration of conformity with the German Corporate Governance Code pursuant to section 161 of the Stock Corporation Act (AktG) and made it permanently accessible on its website (www.db.com/ir/en/documents.htm).

The Managing Directors of the General Partner and the Supervisory Board of DWS Group GmbH & Co. KGaA also issued their declaration of conformity with the German Corporate Governance Code pursuant to section 161 of the Stock Corporation Act (Akt) and made it permanently accessible on its Internet website (<https://group.dws.com/corporate-governance/declaration-of-conformity-pursuant-to-ss161-german-stock-corporation-act-aktg/>).

42 – Additional services rendered by the auditor

Deutsche Bank AG and its subsidiaries have received certain audit-related and tax-related services by Deutsche Bank AG's auditor of the annual financial statements, EY GmbH & Co. KG Wirtschaftsprüfungsgesellschaft ("EY").

The Audit fees include fees for professional services for the audit of our annual financial statements and consolidated financial statements and do not include the audit fees for DWS and its subsidiaries that are not audited by EY. The Audit-related fees include fees for other assurance services required by law or regulations, in particular for financial service specific attestation, for quarterly reviews, as well as fees for voluntary assurance services, like voluntary audits for internal management purposes and the issuance of comfort letters. Our Tax-related fees include fees for services relating to the preparation and review of tax returns and related compliance assistance and advice, tax consultation and advice relating to Group tax planning strategies and initiatives and assistance with assessing compliance with tax regulations.

Information on the fees paid to Deutsche Bank AG's auditor are disclosed in the Group's Annual Report.

43 – Events after the reporting period

After the reporting date no material events occurred which had a significant impact on the bank's results of operations, financial position and net assets.

Mayree Clark, Claudia Fieber* (since May 17, 2023), Florian Haggenmiller* (since January 31, 2024), Timo Heider* (until May 17, 2023), Birgit Laumen* (from May 17, 2023 until 12 January 2023), Detlef Polaschek* (until May 17, 2023), Frank Schulze* (since May 17, 2023), Jürgen Tögel* (since May 17, 2023), Michele Trogni, Stefan Viertel* (until May 17, 2023), Frank Werneke* (until May 17, 2023), Alexander Wynaendts

Technology, Data and Innovation Committee

Michele Trogni, Chairman

Susanne Bleidt* (since May 17, 2023), Jan Duscheck* (until May 17, 2023), Manja Eifert* (since May 17, 2023), Claudia Fieber* (from May 17, 2023 until January 31, 2024), Florian Haggenmiller* (since January 31, 2024), Martina Klee* (until May 17, 2023), Bernd Rose* (until May 17, 2023), Yngve Slyngstad, Alexander Wynaendts

Mediation Committee

Alexander Wynaendts, Chairman

Timo Heider* (since May 17, 2023), Detlef Polaschek* (until May 17, 2023), Frank Schulze* (since May 17, 2023), Frank Werneke* (until May 17, 2023), Professor Dr. Norbert Winkeljohann

*Employee representative

List of mandates

Supervisory Board

Mandates according to § 285 No. 10 German Commercial Code (HGB) in conjunction with § 125 (1) sentence 5 Stock Corporation Act (AktG)

Memberships in statutory supervisory boards of German corporations and in comparable supervisory bodies of German and foreign business enterprises. Changes in memberships during the year are noted with the date of joining and/or leaving.

As of: February 2024

For Supervisory Board members who left earlier, the mandates are shown as of the date they left. For new Supervisory Board members, the mandates shown are as of the date they joined.

Members of the Supervisory Board

Mandate-Holder	Position	Company	Mandate
Alexander Wynaendts	Chairman of the Supervisory Board, Deutsche Bank AG	External mandates	
		Air France-KLM Group S.A.	Member of the Board of Directors
		Puissance Holding B.V.	Non-Executive Director, Chairman
		Uber Payments B.V.	Non-Executive Director, Chairman
		Uber Technologies, Inc.	Member of the Board of Directors
Susanne Bleidt (since May 17, 2023)	Staff Council Member	External mandates	
		Erholungswerk Post Postbank Telekom e.V.	Member of the Members' General Meeting
		Postbeamtenkrankenkasse	Member of the Advisory Board
		Mandates in the Group	
		Postbank Filialvertrieb AG	Member of the Supervisory Board
Ludwig Blomeyer-Bartenstein (until May 17, 2023)	Spokesperson of the Management Bremen, Deutsche Bank AG	External mandates	
		Frowein & Co. Beteiligungs AG	Member of the Supervisory Board
Mayree Clark	Supervisory Board Member	External mandates	
		Ally Financial, Inc.	Member of the Board of Directors
		Allvue Systems Holdings, Inc.	Member of the Board of Directors
Jan Duscheck	Head of National Working Group Banking, trade union ver.di (Vereinte Dienstleistungsgewerkschaft)	No memberships or directorships subject to disclosure	
Manja Eifert	Staff Council Member	No memberships or directorships subject to disclosure	
Claudia Fieber (since May 17, 2023)	Staff Council Member	No memberships or directorships subject to disclosure	
Sigmar Gabriel	Former German Federal Government Minister	External mandates	
		Heristo AG	Member of the Supervisory Board (since July 2023)
		Siemens Energy AG	Member of the Supervisory Board
		Siemens Energy Management GmbH	Member of the Supervisory Board
		ThyssenKrupp Steel Europe AG	Chairman of the Supervisory Board
Florian Haggenmiller (since January 16, 2024)	Head of National Working Group: Information and Communications Technology, ver.di (Vereinte Dienstleistungsgewerkschaft (United Services Union))	External mandates	
		IBM Deutschland GmbH	Member of the Supervisory Board
		IBM Central Holding GmbH	Member of the Supervisory Board
		Mandates in the Group	
		BHW Bausparkasse AG	Deputy Chairman of the Supervisory Board
Timo Heider	Staff Council Member	PCC Services GmbH der Deutschen Bank	Deputy Chairman of the Supervisory Board
		Pensionskasse der BHW Bausparkasse AG VVaG	Deputy Chairman of the Supervisory Board

Members of the Supervisory Board

Mandate-Holder	Position	Company	Mandate
Martina Klee (until May 17, 2023)	Staff Council Member	External mandates Sterbekasse für die Angestellten der Deutsche Bank-Gruppe VVaG	Member of the Supervisory Board
Birgit Laumen (since May 17, 2023 until January 12, 2024)	Trade Union Secretary, trade union ver.di (Vereinte Dienstleistungsgewerkschaft)	Mandates in the Group Postbank Filialvertrieb AG	Member of the Supervisory Board
Gabriele Platscher (until May 17, 2023)	Bank Employee	No memberships or directorships Subject to disclosure	
Detlef Polaschek (until May 17, 2023)	Deputy Chairman of the Supervisory Board; Staff Council Member	No memberships or directorships subject to disclosures	
Bernd Rose (until May 17, 2023)	Staff Council Member	External mandates ver.di Vermögensverwaltungs-gesellschaft m.b.H.	Deputy Chairman of the Supervisory Board
		Mandates in the Group Postbank Filialvertrieb AG	Member of the Supervisory Board
Frank Schulze (since May 17, 2023)	Deputy Chairman of the Supervisory Board; Staff Council Member	No memberships or directorships subject to disclosures	
Gerlinde Siebert (since May 17, 2023)	Global Head of Governance, Deutsche Bank AG	Mandates in the Group Deutsche Holdings (Luxembourg) S.a.r.l.	Member of the Supervisory Board (until December 2023)
Yngve Slyngstad	Chief Executive Officer, Aker Asset Management AS	No memberships or directorships subject to disclosure

Independent Auditor's Report

To Deutsche Bank Aktiengesellschaft, Frankfurt am Main

Report on the audit of the annual financial statements and of the management report

Opinions

We have audited the annual financial statements of Deutsche Bank Aktiengesellschaft, Frankfurt am Main, which comprise the balance sheet as at 31 December 2023, and the income statement for the fiscal year from 1 January 2023 to 31 December 2023, and notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of Deutsche Bank Aktiengesellschaft, which is combined with the group management report, for the fiscal year from 1 January 2023 to 31 December 2023. In accordance with the German legal requirements, we have not audited the last paragraph of the section "Risk management principles (chapter risk report)" of the management report regarding management's statement on the risk management framework and internal control system and the content of the combined Corporate Governance Statement pursuant to Sec. 289f and 315d HGB which is published on the website stated in the management report and is part of the management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to institutions and give a true and fair view of the assets, liabilities and financial position of the Institution as at 31 December 2023 and of its financial performance for the fiscal year from 1 January 2023 to 31 December 2023 in compliance with German legally required accounting principles, and
- the accompanying management report as a whole provides an appropriate view of the Institution's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. We do not express an opinion on the last paragraph of the section risk management principles (chapter "risk report") of the management report regarding management's statement on the risk management framework and internal control system referred to above and on the content of the combined statement on corporate governance referred to above.

Pursuant to Sec. 322 (3) Sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Sec. 317 HGB and the EU Audit Regulation (No 537/2014, referred to subsequently as "EU Audit Regulation") and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's responsibilities for the audit of the annual financial statements and of the management report" section of our auditor's report. We are independent of the Institution in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Art. 10 (2) f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Art. 5 (1) of the EU Audit Regulation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Key audit matters in the audit of the annual financial statements

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual financial statements for the fiscal year from 1 January 2023 to 31 December 2023. These matters were addressed in the context of our audit of the annual financial statements as a whole, and in forming our opinion thereon; we do not provide a separate opinion on these matters.

Below, we describe what we consider to be the key audit matters:

1. Valuation of financial instruments with related inputs not quoted in active markets

Reasons why the matter was determined to be a key audit matter

Management uses valuation techniques to establish the fair value financial instruments with related inputs not quoted in active markets. The Bank held trading assets and trading liabilities of EUR 247,596m and EUR 191,329m as of 31 December 2023. Both accounts also contain financial instruments whose valuation is based on unobservable inputs.

Financial instruments with related inputs that are not quoted in active markets include structured derivatives valued using complex models; more-complex or illiquid OTC derivatives; distressed debt; highly-structured bonds; illiquid loans, including those relating to commercial real estate; credit spreads used to determine valuation adjustments; and other significant inputs which cannot be observed for financial instruments with longer-dated maturities.

As the valuation of financial instruments with related inputs not quoted in active markets is based on a high degree on management's assumptions and judgments due to the complex nature of the valuation techniques and models being utilized and the unobservability of the significant inputs used, this is a key audit matter.

Auditor's response

We obtained an understanding, evaluated the design and tested the operating effectiveness of the controls over management's processes to determine fair value of financial instruments and determination of significant unobservable inputs therein. This includes controls relating to independent price verification; independent validation of valuation models, including assessment of model limitations; monitoring of valuation model usage; and calculation of fair value adjustments.

We evaluated the valuation techniques, models and methodologies, and tested the significant inputs used in those models. We performed an independent revaluation of a sample of derivatives and other financial instruments at fair value that are not quoted in active markets, using independent models and inputs. We also independently assessed the reasonableness of a sample of proxy inputs used by comparing to market data sources and evaluated their relevance to the related financial instruments.

In addition, we evaluated the methodology and inputs used by management in determining fair value adjustments against the requirements of Sec. 340e HGB and performed recalculations for a sample of these valuation adjustments using our own independent data and methodology.

We involved internal financial instruments valuation specialists in the procedures related to valuation models, independent revaluation and fair value adjustments.

Our procedures did not lead to any reservations relating to the valuation of financial instruments with related inputs not quoted in active markets.

Reference to related disclosure

Information on the valuation techniques, models and methodologies used in the measurement of fair value is provided in the sections "General Information, Basis of Presentation" and "Notes to the Balance Sheet, Trading Assets and Liabilities" in the notes to the annual financial statements.

2. Inclusion of forward-looking information in the model-based calculation of expected credit losses

Reasons why the matter was determined to be a key audit matter

Management has adopted the requirements of IDW AcP BFA 7 and recognizes a credit loss allowance in accordance with IFRS 9 for financial assets which are considered to have experienced a significant increase in credit risk since initial recognition.

The estimated probabilities of default (PD) used in the model-based calculation of expected credit losses on non-defaulted financial instruments (IFRS 9 stage 1 and stage 2) are based on historical information, combined with current economic developments and forward-looking macroeconomic forecasts (e.g., gross domestic product and unemployment rates). Statistical techniques are used to transform the base scenario for future macroeconomic developments into multiple scenarios. These scenarios are the basis for deriving multi-year PD curves for different rating and counterparty classes, which are used in the calculation of expected credit losses.

Given the economic uncertainties regarding pronounced movements in interest rates, current geopolitical conflicts and other sources of volatility impacting macroeconomic variables, the estimation of forward-looking information requires significant judgment. To reflect these uncertainties, management must assess whether to make adjustments to its standard process for inclusion of macroeconomic variables into the expected credit loss model and forecasting methods, either by adjusting the macroeconomic variables or through the inclusion of management overlays.

In view of the significant holdings of non-defaulted financial instruments subject to impairment under IFRS 9 and the economic uncertainty and significant use of judgment, we consider the inclusion of forward-looking information in the model-based calculation of expected credit losses, any adjustments thereof, to be a key audit matter.

Auditor's response

We obtained an understanding of the processes implemented by management, assessed the design of the controls over the selection, determination, monitoring and validation of forward-looking information in respect of the requirements under IFRS 9, and tested their operating effectiveness.

We evaluated management's review of its expected credit loss model and forecasting methods conducted through the model validation process. Furthermore, we evaluated the methods used to include the selected variables in the baseline scenario and the derivation of the multiple scenarios.

We assessed the baseline macroeconomic forecasts by comparing them with macroeconomic forecasts published by external sources.

We also evaluated the methodology applied by management to determine whether to adjust its standard process for inclusion of macroeconomic variables or to adjust the model results through management overlays. In doing so, we assessed the results of management's sensitivity analysis and compared the macroeconomic variables used to our own benchmark analysis. We also assessed that the adjustments were included in the calculation of expected credit losses according to management's methodology.

To assess the inclusion of forward-looking information in the model-based calculation of expected credit losses, we involved internal credit risk modelling specialists.

Our procedures did not lead to any reservations relating to the inclusion of forward-looking information in the model-based calculation of expected credit losses.

Reference to related disclosures

Information on the inclusion of forward-looking information in the model-based calculation of expected credit losses is provided in section "General Information, Basis of Presentation" in the notes to the annual financial statements.

3. Expected credit losses for defaulted commercial real estate loans

Reasons why the matter was determined to be a key audit matter

Management has adopted the requirements of IDW AcP BFA 7 and recognizes a credit loss allowance in accordance with IFRS 9 for financial assets which are considered to have experienced a significant increase in credit risk since initial recognition.

Identifying and calculating the expected credit losses for defaulted loan exposures involves various assumptions and estimation inputs, particularly regarding the solvency of the borrower, expectations of future cash flows, observable market prices and expected proceeds from the realization of collateral.

In view of an increase in defaulted loan exposures relating to the commercial real estate business and the economic uncertainty and significant use of judgment, we consider expected credit losses (ECL) for defaulted commercial real estate loans as a key audit matter.

Auditor's response

We obtained an understanding of the processes for identifying and calculating expected credit losses for borrowers in the commercial real estate loans business. We assessed the design and tested the operating effectiveness of controls related to credit risk rating, the application of default criteria and transfer to stage 3 in accordance with IFRS 9 and the calculation of the expected credit loss.

We evaluated the criteria used by management to determine defaulted loans in accordance with IFRS 9.

For a sample of commercial real estate loans we analyzed the application of default criteria used for ECL-Staging. For loans classified as stage 3 we assessed the significant assumptions concerning the estimated future cash flows from the loan exposures, by assessing the collateral value, the solvency of the borrower and the publicly available market and industry forecasts. We searched for and evaluated information that corroborates or contradicts management's forecasted assumptions. We also tested the arithmetical accuracy of the expected credit loss calculated for defaulted exposures.

We involved internal specialists to assess the valuation of commercial real estate collateral on a sample basis.

Our procedures did not lead to any reservations relating to the expected credit losses for defaulted commercial real estate loans.

Reference to related disclosures

Information on the Bank's commercial real estate loans business is included in section "General Information, Basis of Presentation" in the notes to the annual financial statements as well as the section "Asset Quality" in the Risk Report (Combined Management Report).

4. Valuation of investments in affiliated companies

Reasons why the matter was determined to be a key audit matter

As of 31 December 2023, the Bank reported investments in affiliated companies of EUR 29,282m.

Investments in affiliated companies are carried at acquisition cost or, in the case of a permanent impairment, at the lower fair value. The fair value is determined using a discounted cash flow model for the respective affiliated company. In this context, significant assumptions are made regarding the earnings projections and the discount rate. The discount rate is derived using the Capital Asset Pricing Model.

As the measurement of investments in affiliated companies involves a high degree of judgment due to the earnings projections and discount rate contained in the discounted cash flow model this is a key audit matter.

Auditor's response

We obtained an understanding of the process for preparing the earnings projections and calculating the fair value of investments in affiliates. In this respect, we also obtained an understanding of management's controls regarding the earnings projections and the discount assessed the design of such controls and tested their operating effectiveness.

We analyzed the significant assumptions described above with a focus on significant changes compared with the prior year. In this regard, we assessed the consistency and reasonableness of the significant assumptions used in the discounted cash flow model by comparing them with external market expectations.

In analyzing the expected future cash flows of the investments in affiliates, we compared the earnings projections with the prior fiscal year's projections and with the actual results achieved and evaluated any significant deviations. Furthermore, we assessed the discount rate by comparing it to a range of externally available forecasts. To assess the above assumptions made in the recoverability of investments in affiliated companies we involved internal business valuation specialists.

Our procedures did not lead to any reservations relating to the valuation of investments in affiliated companies.

Reference to related disclosures

Information on the valuation of investments in affiliated companies is provided in the notes to the annual financial statements in the sections "General Information, Basis of Presentation" and in the "Notes to the Balance Sheet, Information on Affiliated, Associated and Related Companies".

5. Recognition and measurement of deferred tax assets

Reasons why the matter was determined to be a key audit matter

As of 31 December 2023, the Bank reported deferred taxes of EUR 6,698m.

The recognition and measurement of deferred tax assets is based on the estimation of the ability to utilize unused tax losses and deductible temporary differences against potential future taxable income. This estimate is based, among others, on assumptions regarding forecasted operating results based upon the approved business plan.

In light of the use of judgment in estimation of future taxable income and the ability to use tax losses the recognition and measurement of deferred tax assets is a key audit matter.

Auditor's response

We obtained an understanding of the process to determine whether deductible temporary differences and unused tax losses are identified in different jurisdictions and measured in accordance with the provisions of tax law and rules for accounting for deferred taxes under Sec. 274 HGB, evaluated the design and tested the operating effectiveness of the related controls.

We tested the assumptions used to develop and allocate elements of the approved business plan as a basis for estimating the future taxable income of the relevant controlled companies and tax groups.

Furthermore, we evaluated the recognition of deferred tax assets by analyzing the key assumptions made in estimating future taxable income. We assessed the estimates made in the forecasted operating results by comparing the underlying key assumptions with historical and prospective data available externally. We compared the historical forecasts with the actual results. In addition, we assessed the estimated tax adjustments and we performed sensitivity analyses on the utilization periods of the respective deferred tax assets.

To assess the assumptions used in the recoverability of the deferred tax assets, we involved our tax professionals and internal business valuation specialists.

Our procedures did not lead to any reservations relating to the recognition and measurement of the deferred tax assets.

Reference to related disclosures

Information on the recognition and measurement of deferred taxes is provided in the sections "General Information, Basis of Presentation" and "Notes to the Balance Sheet, Deferred Taxes" in the notes to the annual financial statements.

6. IT Access and Change Management in the financial reporting

Reasons why the matter was determined to be a key audit matter

The accuracy of the Bank's financial reporting is highly dependent on the reliability and the continuity of the used information technology due to the significant number of transactions that are processed daily.

Given the high dependency on reliable and continuing data processing and given the pervasive nature of IT controls on the internal control system, we consider IT Access and Change Management in the Bank's financial reporting as a key audit matter.

Auditor's response

We assessed the IT control environment including the IT general controls as well as the IT application controls relevant to the Bank's financial reporting. Our procedures also covered the changes during the year on the current IT control environment.

Moreover, we tested the operating effectiveness of prevent and detect IT general controls related to user access management and change management across applications, databases and operating systems. Additionally, we tested IT application controls over automated data processing, data feeds and interfaces. Our audit procedures related to IT access management included, but were not limited to, user access provisioning and removal, privileged user access, periodic access right recertifications, system security settings and user authentication controls.

Our audit procedures related to IT change management included, but were not limited to, evaluating if changes in the productive environment were tested and approved prior to implementation and the ability to deploy changes was restricted to authorized users.

To assess the IT Access and Change Management in the Bank's financial reporting process, we involved internal professionals who have particular expertise in the area of IT audits.

Our procedures relating to the IT access and change management did not lead to any reservations in the Bank's financial reporting.

Reference to related disclosures

For a general description of internal controls over the financial reporting, we refer to the combined management report in section "Internal Control over Financial Reporting".

Other information

The executive directors are responsible for the other information. The other information comprises

- the last paragraph of the section risk management principles (chapter “risk report”) of the management report regarding management’s statement on the risk management framework and internal control system,
- the combined Corporate Governance Statement pursuant to Sec. 289f. and 315d HGB published on the website referred to in the management report,

and the following other parts to be included in the annual report, of which we obtained a version prior to issuing this auditor’s report:

- the Non-financial Report,
- the Responsibility Statement pursuant to Sec. 264 (2) Sentence 3 HGB in conjunction with Sec. 289 (1) Sentence 5 HGB,

but not the annual financial statements, not the management report disclosures whose content is audited and not our auditor’s report thereon.

Our opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the executive directors and the Supervisory Board for the annual financial statements and the management report

The executive directors are responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to institutions, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Institution in compliance with German legally required accounting principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German legally required accounting principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud (i.e., fraudulent financial reporting and misappropriation of assets) or error.

In preparing the annual financial statements, the executive directors are responsible for assessing the Institution’s ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the management report that, as a whole, provides an appropriate view of the Institution’s position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The Supervisory Board is responsible for overseeing the Institution’s financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's responsibilities for the audit of the annual financial statements and of the management report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Institution's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sec. 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems of the Institution.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- Conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institution to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Institution in compliance with German legally required accounting principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with [German] law, and the view of the Institution's position it provides.
- Perform audit procedures on the prospective information presented by the executive directors in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

Other legal and regulatory requirements

Report on the assurance on the electronic rendering of the annual financial statements and the management report prepared for publication purposes in accordance with Sec. 317 (3a) HGB

Opinion

We have performed assurance work in accordance with Sec. 317 (3a) HGB to obtain reasonable assurance about whether the rendering of the annual financial statements and the management report (hereinafter the "ESEF documents") contained in Deutsche_Bank_AG_JA+LB_ESEF-2023-12-31.zip and prepared for publication purposes complies in all material respects with the requirements of Sec. 328 (1) HGB for the electronic reporting format ("ESEF format"). In accordance with German legal requirements, this assurance work extends only to the conversion of the information contained in the annual financial statements and the management report into the ESEF format and therefore relates neither to the information contained within these renderings nor to any other information contained in the file identified above.

In our opinion, the rendering of the annual financial statements and the management report contained in the file identified above and prepared for publication purposes complies in all material respects with the requirements of Sec. 328 (1) HGB for the electronic reporting format. Beyond this assurance opinion and our audit opinions on the accompanying annual financial statements and the accompanying management report for the fiscal year from 1 January 2023 to 31 December 2023 contained in the "Report on the audit of the annual financial statements and of the management report" above, we do not express any assurance opinion on the information contained within these renderings or on the other information contained in the file identified above.

Basis for the opinion

We conducted our assurance work on the rendering of the annual financial statements and the management report contained in the file identified above in accordance with Sec. 317 (3a) HGB and the IDW Assurance Standard: Assurance on the Electronic Rendering of Financial Statements and Management Reports Prepared for Publication Purposes in Accordance with Sec. 317 (3a) HGB (IDW AsS 410) (06.2022) and the International Standard on Assurance Engagements 3000 (Revised). Our responsibility in accordance therewith is further described in the "Auditor's responsibilities for the assurance work on the ESEF documents" section. Our audit firm applies the IDW Standard on Quality Management 1: Requirements for Quality Management in the Audit Firm (IDW QS 1).

Responsibilities of the executive directors and the Supervisory Board for the ESEF documents

The executive directors of the Company are responsible for the preparation of the ESEF documents including the electronic rendering of the annual financial statements and the management report in accordance with Sec. 328 (1) Sentence 4 No. 1 HGB.

In addition, the executive directors of the Company are responsible for such internal control as they have determined necessary to enable the preparation of ESEF documents that are free from material intentional or unintentional non-compliance with the requirements of Sec. 328 (1) HGB for the electronic reporting format.

The supervisory board is responsible for overseeing the process for preparing the ESEF documents as part of the financial reporting process.

Auditor's responsibilities for the assurance work on the ESEF documents

Our objective is to obtain reasonable assurance about whether the ESEF documents are free from material intentional or unintentional non-compliance with the requirements of Sec. 328 (1) HGB. We exercise professional judgment and maintain professional skepticism throughout the assurance work. We also:

- Identify and assess the risks of material intentional or unintentional non-compliance with the requirements of Sec. 328 (1) HGB, design and perform assurance procedures responsive to those risks, and obtain assurance evidence that is sufficient and appropriate to provide a basis for our assurance opinion.
- Obtain an understanding of internal control relevant to the assurance on the ESEF documents in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing an assurance opinion on the effectiveness of these controls.
- Evaluate the technical validity of the ESEF documents, i.e., whether the file containing the ESEF documents meets the requirements of Commission Delegated Regulation (EU) 2019/815, in the version in force at the date of the financial statements, on the technical specification for this file.
- Evaluate whether the ESEF documents enable an XHTML rendering with content equivalent to the audited annual financial statements and to the audited management report.

Further information pursuant to Art. 10 of the EU Audit Regulation

We were elected as auditor by the Annual General Meeting on 17 May 2023. We were engaged by the Supervisory Board on 8 August 2023. We have been the auditor of Deutsche Bank Aktiengesellschaft without interruption since fiscal year 2020.

We declare that the opinions expressed in this auditor's report are consistent with the additional report to the Audit Committee pursuant to Art. 11 of the EU Audit Regulation (long-form audit report).

Other matter – use of the auditor's report

Our auditor's report must always be read together with the audited annual financial statements and the audited management report as well as the assured ESEF documents. The annual financial statements and the management report converted to the ESEF format – including the versions to be published in the Unternehmensregister–[German Company Register] are merely electronic renderings of the audited annual financial statements and the audited management report and do not take their place. In particular, the ESEF report and our assurance opinion contained therein are to be used solely together with the assured ESEF documents made available in electronic form.

German Public Auditor responsible for the engagement

The German Public Auditor responsible for the engagement is Mr. Holger Lösken.
